# Cabinet okays Ethanol Price Hike, Cotton Support, MPLAD Restart

Cotton Corporation of India gets ₹17,408.85 crore for minimum support price operations

**Our Bureau** by 2025-26.

**New Delhi:** The government on Wednesday approved increase in ethanol prices, restoration and continuation of MP Local Area Development Scheme (MPLADS) and support of Rs 17,408.85 crore to Cotton Corporation of India for minimum support price operations.

The government also raised the prices of sugarcane-based ethanol by up to Rs 1.47 per litre for blending with petrol for supply year 2021-22. The Cabinet Committee of Economic Affairs (CCEA) has increased the price of ethanol extracted from C heavy molasses to Rs 46.66 per litre, from Rs 45.69. The rate of ethanol obtained from B heavy molasses has risen from Rs 57.61 per litre to Rs 59.08.

Ethanol produced from sugarcane juice, sugar /sugar syrup is up from Rs 62.65 to Rs 63.45 per litre. Transportation charges and goods and services tax will have to be paid separately. Oil marketing companies such as Indian Oil, HPCL and BPCL obtain ethanol from distilleries at government-determined rates to mix with petrol.

"The government has decided that oil PSEs should be given the freedom to decide the pricing for 2G ethanol as this would help in setting up advanced biofuel refineries," an official statement read. Oil marketing companies set prices for grain-based ethanol currently. The government has set a target of 10% ethanol blending by the end of ethanol supply year 2021-22 from about 8% this year. Ethanol supply year begins in December. The aim is to raise blending further to 20% by 2025-26.

**COTTON SUPPORT**

The CCEA gave its nod to committed price support of Rs 17,408.85 crore to the Cotton Corporation of India to reimburse losses under minimum support price (MSP) operations for cotton during for seven cotton seasons (October to September) from 2014-15 to 2020-21.

On cotton support, the government will release almost Rs 8,000 crore this fiscal year through supplementary and the remaining in budget next year.

"In order to safeguard the interests of the cotton farmers, it is expedient to conduct price support operations in cotton years 2014-15 to 2020-21 as cotton prices touched the MSP prices," the government said in a statement.

"With this move, Cotton Corporation will be able to repay its loan. Also, the corporation takes a loan of Rs 25,000 every year and with these funds, they can begin procurement," said textiles secretary Upendra Prasad Singh.

Singh said normal consumption in the country is 330-340 lakh bales which reduced to 25-260 lakh bales in 2019-20 as many spinning mills were shut. "We expect record consumption this year," he said, adding that cotton availability is expected to fall due to ban on cotton in China's Xinjiang province.

**JUTE PACKAGING**

The CCEA also approved the reservation norms for mandatory use of jute in packaging for the Jute Year 2021-22 (July 1, 2021 to June 30, 2022) to provide for 100% reservation of the foodgrains and 20% of sugar to be compulsorily packed in jute bags. Singh said that this time, the jute crop is "one of the best" in recent times and mills have unutilised capacity.

Some 75% of the total production of the jute industry is sacking bags, of which 90% is supplied to the Food Corporation of India and State Procurement Agencies and remaining is exported/sold directly. The government purchases jute bags worth approximately Rs 8,000 crore every year for packing of foodgrains. Average production of bags is about 30 lakhs bales (9 lakh MT).

"We have asked jute mills to diversify to other products so that their total dependence on supply of jute bags to procuring agencies goes away," Singh said, adding that procurement is only 30-40% of total production in the country.

**MPLADS**

The cabinet also approved the restoration and continuation of Member of Parliament Local Area Development Scheme (MPLADS). The scheme has been restored for remaining part of FY22 wherein MPs will get Rs 2 crore for local area development and Rs 5 crore per annum from the next fiscal till 2025-26.

The total financial implication for restoration and continuation of the MPLADS for the remaining part of the FY22 and up to 2025-26 will be Rs 17,417 crore.

**India, China Steel Rivalry to Intensify in Export Markets**

**New Delhi:** The competition between Indian and Chinese steel players could intensify at global level, amid subdued steel demand in China, according to Icrs. According to Icrs's latest report, in 2020-21, China emerged as the single-largest importer of steel from India. However, with the Chinese steel demand growth waning in the current fiscal, the share of steel exports to China by Indian mills has plummeted to just 8% in the first half of the ongoing fiscal from 30% in the preceding financial year. "As demand dries up back home, a steadily rising trend in Chinese steel exports suggests that competition in the export markets between Indian and Chinese mills could intensify going forward," it said. The demand has been affected as a few Chinese property developers faced financial issues, and the Chinese property industry accounts for around 15% of global steel demand. The government introduced the "Three Red Lines", which put in place a mechanism to prevent the piling up of excessive borrowings on the balance sheet. — PTI

# Google Loses Appeal Against EU's €2.4-B Anti-trust Fine

**Brussels:** The European Union's second-highest court on Wednesday shot down an appeal by Google against a €2.4-billion (\$2.8-billion) fine imposed by Brussels for abusing its search engine dominance.

The ruling by the Luxembourg-based General Court confirmed the landmark decision taken by the European Commission in 2017. The matter could be challenged again, however, if Google decides to turn to the EU's highest court, the European Court of Justice, for a final say. The case centres on Google's shopping service and is one of three against the search engine giant currently moving through the EU's drawn-out appeals system. At the time, the fine was the EU's biggest ever. But it was later exceeded by a €4.3-billion fine against Google over Android, the company's smartphone operating system.

In its appeal, Google and its parent company Alphabet had argued the EU was "wrong on the law, the facts, and the economics" in the search engine case.

But the court said it dismissed "for the most part the action brought by the two companies, and upholds the fine imposed by the Commission".

It said that, by favouring its own Google Shopping service over rivals in its search result rankings and positioning, "Google departed from competition on the merits". It rejected Google's argument that big online retailers had their own internet sites, saying that "those platforms are not on the same market" in which users go comparison shopping.

The Luxembourg ruling is a win for the EU's anti-trust supreme Margrethe Vestager, who burst onto the scene in Brussels by scrapping her predecessor's more conciliatory approach to the US tech titan. **AFP**
